DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 drawn to a polyaniline capable of converting between self-doped form and non-self doped form as recited in claim 6

Group II, claim(s) 10-14 drawn to method of making polyaniline as recited in Group I.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in both groups is the polyaniline capable of converting between self-doped form and non-self doped form. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art.

US2002/0029979 (listed on IDS and ISP) discloses a polyaniline prepared by exposing 3-amino-boronic acid (formula 1 of instant claim 6) to sodium fluoride to form poly(aniline-3-bornic acid) ([0046]), followed by exposing the resultant polyaniline to fructose solution (forms D-fructose and other isomers) ([0048], Fig. 2). The disclosure of the reference meets all material limitations of the common technical feature, and the

disclosed modified polyaniline would inherently be capable of converting between self-doped form and non-self doped form.

A telephone call was made to Joy D. Morrow on 06/29/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Affirmation of this election must be made by applicant in replying to this office action. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
